REVIEW OF THE WILMINGTON MARKET. FOR THE WEEK ENDING JULY 5TH, 1855.

Peanuts, & bushel,.....00

Rough Rice, # bushel..... 00

Business generally has been very dull since our review of three weeks past there have been only three or four vessels arrived here. There is a fair amount of produce waiting to go forward, and in the absence of shipping the quantity on the wharves is accumulating. Our report for the week's transactions will be found meagre, viz:

and patterns of Railing, which may be seen at their office.

BOILERS.—Tubular, Flue and Cylindrical Boilers, Water Tanks, Chimneys, and all other kinds of Boiler work.

REPAIRS.—A separate department and force will be kept for repairs where work will be done thoroughly, and with despatch. All work done in the establishment delivered either on the cars of the Wil. & Man R. R.

TURPENTINE-Ruled steady at last Thursday's quotations up to Monday, when there was a decline of 5 cents on yellow, and 20 @ 25 cents on virgin dip. The arrivals have been small for the week, but in the absence of shipping the demand has been confined to distillers. The transactions foot

There is a large stock of Common on market, but there is no demand from buyers, and the market is dull at offered in this market, consisting in part of

TAR-Has come to market sparingly, and in the absence of any demand from shippers the price has declined fully 20 ets. The sales for the week reach only 496 bbls., as follows: Monday211 " " 2 15 Tuesday 60 " " 2 00 " "

Thursday122 " 2 00 " " Corron-Since Thursday last the market has ruled qui et, with but little disposition on the part of buyers to operate. Two or three small parcels received per railroad, and selling to grocers at \$1 50 \$ bushel, in quantities to suit.

FLOUR—The market for Fayetteville and Wilmington brands has ruled quiet during the week, and prices have declined 25 @ 50 cents. Sales have been made of small par- style of DAVIS & BUNTING. for family. Prices have a decided downward tendency, and buyers are unwilling to purchase more than what is sufficient for immediate use, in anticipation of a decline. GRAIN-CORN is in fair demand, and very little on market. The receipts since our last have been confined to small parcels per railroad, which have gone into store and selling at
